Periyar University,
Bachelor of Science
06/2015 – 04/2018 | Namakkal
GPA: 7.1

KEY ACHIEVEMENTS

- Improved application stability by reducing recurring issues through proactive debugging.
- Appreciated by stakeholders for fast issue resolution and strong collaboration.

LANGUAGES

Tamil

English

SUMMARY

Full Stack Developer with 2.5 years of experience building scalable enterprise applications using .NET Core, C#, ASP.NET MVC, Web API, JavaScript, and SQL Server. Adept at enhancing system performance, improving application reliability, and contributing to end-to-end development. Proven ability to work with cross-functional teams, optimize code quality, and support continuous integration and deployment.

WORK EXPERIENCE

Greenleads Technologies, Programmer Analyst

05/2024 – Present | Chennai

- Designed and developed web applications using ASP.NET Core, C#, MVC, Web API, and SQL Server.
- Designed and integrated RESTful APIs and backend services for enterprise systems.
- Optimized database operations by creating and tuning SQL queries, stored procedures, and functions.
- Monitored system performance, handled debugging, and provided production support to improve application performance and stability.

Genius Consultants Ltd (Payroll), Client: TCS, Associate

11/2021 – 05/2024 | Chennai

Project: Internal Application Support & API Enhancement (TCS)

- Supported internal TCS applications built on .NET technologies, focusing on stability, backend troubleshooting, and API validations.
- Worked on issue resolution, SQL analysis, and system improvements to enhance reliability and data accuracy.

Technologies: .NET Core, ASP.NET MVC, C#, Web API, SQL Server, JavaScript, JQuery

Roles and Responsibilities

- Developed and supported web and backend application modules using .NET Core, C#, and ASP.NET MVC.
- Built and consumed RESTful APIs to support integrations and seamless data exchange.
- Collaborated with cross-functional teams to gather requirements and deliver effective technical solutions.
- Wrote and optimized SQL queries, stored procedures, and database functions for performance improvements.
